Man. Proceedings at the Inquest Over Wing-SAN DIEGO, July 10th .- After the hunt field's Body. for Murray, the murderer of Marshal Wilson, of Oceanside, had relaxed in Benicia, July 10th.—The Coroner's jury held an inquest on the body of J. Page Wingfield this morning, and found that deceased came to his death from a pistol shot at the hands of J. E. Crooks. At the inquest a number of witnesses were examined, and all seemed to agree that Crooks was first assaulted. W. L. Clark, Wingfield's companion, stated that he and the deceased came to town to demand an extinction for the deceased came to town to demand an extinction for the local state of the posse had been withdrawn from the search, the criminal came from his hiding-place in the vicinity of the murder, where he has been ever since, and gave himself up last night, when his chances for getting away seemed the best. About noon to day a wagon with four dusty and tired-out men drove up to the County Jail. One of them was quickly placed in the strongest cell, while the other three men went to the room of the County supervisors and received a warrant for \$500 that being the amount offered for Murray's capture by the county. John Martin, William Griffin and A

Paden were the men who brought him in and they say that Murray applied to Martin last night at Griffin's ranch, in the San Luis Rev valley, for something to eat. He was a sorry looking sight and was nearly starved to death. After eating he surrendered his pistol on condition that they hould bring him to San Diego by wagonroad, and protect him from the mob at Oceanside. They started from the ranch, forty-two miles from the city, about midnight, and drove in by a circuitous route in order to avoid the citizens of that place,

who learned of the capture, and were reported out in force to lynch the prisoner.

Murray says he was lying hid in the grass on top of a knob for five days, and twice a brother of the murdered man passed within a few yards of him. He claims that he thought he had killed a man named Al McCray, and was so drunk at the time that he did not know what he was doing. He was arraigned before Judge Hays this afternoon, and when questioned said, "Yes, I am guilty, Judge; but I want a fair shake." He was told that he would have

If all the nations of Europe to-day were republics, there would be absolutely no necessity for maintaining vast armies, which disgrace current civilization on that continent. Nations governed by the people do not make aggressive wars. Such wars originate in the selfish ambition of sovereigns or the desire for national aggrandizement on the part of some upstart

The most sublime national spectacle that has ever presented itself to the students of history is that presented by unarmed America to-day, and it is unarmed because it can afford to be. It is too strong to be attacked; it is too just to provoke assault. Even its seeming defenselessness is a defense, just as to be unarmed among cutthroats is in a measure a guarantee against attack. The example of unarmed America is worth more to the cause of humanity throughout the world, especially to the dignity and strength of republican institutions, than the finest navy or the strongest

The modern tendency of civilization i away from war and from preparations for war. In former times greatness in statesmanship consisted in conducting nations successfully through great wars. In modern times it is the highest triumph of statesmanship to avoid hostile collisio between nations. The two grandest personages of our time, Gladstone and Bismarck, have their chief distinction in their ability to achieve for the nations over whose political destiny they have presided the fruits of war without bloodshed. England, under the leadership of Gladstone, in 1885, by avoiding the war which Russia sought to provoke, achieved a greater victory than could possibly have attended the conquest of armies.

The example of unarmed America, if persisted in, and the blessing to the masses of her citizens which will inevitably follow that unarmed condition, will eventually so educate the world that its great powers will stand in invincible alliance to preserve and perpetuate peace.

A SENSIBLE SUGGESTION.

Amasa Walker, the head of the great polytechnic school at Boston, in a recent address before the Phi Beta Kappa Society at Mound University, said: "Let it be our pride, as it is our privilege, to remain the great unarmed nation, as little fearing harm from any as desiring to do wrong to any."

It is now proposed to have the cars return home, removing, however, at some convenient place, some kastern commercial center, the exhibition from the cars, and establishing the rolling exhibition of 1888-81 in some city, possibly Chicago. The exhibition is composed in sibly Chicago. The exhibition is composed, in a very large measure, of imperishable articles, and may, therefore, be established as a very creditable permanent exhibition in some leading Eastern center. Consultation with railr authorities develops the fact that two very fine cars may now be had for the campaign of 1889-90, and upon this subject T. H. Golden Shore. New York, July 10th .- Duncan A. Mac Tavish, agent of the Bank of British North America and an old-time merchant, died yesterday, aged 72 years. The deceased was one of the earliest settlers in California, arriving by way of Mexico in the forties. After engaging in business in San Francisco for some years, in connection with W. R. Harrison, lately of Falkner, Bell & and J. C. Taylor, now a resident of Oakland, he removed north, where he lived for sometime. In 1853 he returned to the East, and continued in the grain and commission business until about ten years ago, when he became agent for the Bank of British North America. Mr. MacTavish was well-known for his thrifty qualities, and died wealthy, his fortune being estimated at between \$400,000 and \$500,000.

#### VISITING JOURNALISTS.

Preparations for Receiving Them in Proper Style. At noon on the 25th of this month a special train will reach this city having on board about one hundred members of the Western Associated Press. These gentlemen are the owners and managers of the great daily newspapers of the Western States, who come to take a look at California. They will visit several sections in the State-the Sacramento, San Josquin, Napa and Santa Clara valleys, and go as far south as Merced. The State Board of Trade, at its meeting on Tuesday, appointed a committee to arrange a proper reception of the excursionists and enlighten them in regard to the resources and beauties of California. The excursionists will remain in Sacra-mento for three hours, and arrangements should be made to give them a reception and show them the beauties of our city. E. K. Alsıp, the Sacramento representative in the State Board of Trade, assured that body that this city would entertain the visitors in a fitting manner, and Mayor Gregory is

ness men of the city. The following circular, issued by the Secretary of the State Board of Trade yesterday, explains itself. The fruits, wines, flowers, etc., are to be sent to Ogden for use on the special train as it comes this way: CALIFORNIA STATE BOARD OF TRADE.)

California State Board of Trade, 605 Market Street, San Francisco, July 10, 1889. Special and Important—A special train carrying over one hundred of the members of the Associated Press, edi ors and proprietors of the leading newspapers in the East, will arrive in this State on the 25th of July. In view of the work of this Board, it unanimously resolved at its annual meeting held yesterday (Iuesday), 9th, that the opportunity to enlighten these editors could not pass by, hence your county is called upon to furnish fruits, wines, salads, flowers. Please arrange to have the articles ready for shipment by the 20th of July. I will arrange with either Wells-Fargo or Southern Pacific Company to forward to me, care agent, Sacramento. A special committee of the Board will accompany the press committee to the State line to meet the special.

The party will visit sevaral portions of the State—the Santa Clara, Napa, San Joaquin and Sacramento valleys—for the purpose of viewing the fruit and vine culture. We are also desirous of educating them concerning the advantage of irrigation. This will materially assist the Senstorial committee in their arid land survey reports.

Your assistance in this matter is urgently requested. Very truly yours,

On the night of July 4th, a fire-alarm was sounded for box 21, at Twelfth and O streets, and Chief Engineer O'Meara was not long in reaching that locality, only to find that there was no fire in the neighborhood. There was a slight one, however, but it was on K street, between Eighth and Ninth. Night before last an alarm was sounded for Front and M streets, while the fire was in progress at Twentieth and O. These blunders are becoming dangerously monotonous, and it is about time the Fire Commissioners carried out their promise made a mouth or so ago to do a little reforming in that branch of the Fire De partment service. It does seem as if it might be possible to have the fire-alarm system kert in such a state of repair that alarms could be sent in correctly. It is too serious a matter to be trifled with, and there should be a thorough investigation, without further delay, and the blame fixed

The person who is paid to look after the fire-alarm system has had various excuses to offer for past errors of the kind referred to, and it is barely possible that he can show he is not to blame, but property-owners require some positive evidence in that direction, or a change in the service. It does ders cannot be avoided. As it is, the fire alarm service is more than a farce-it is a positive menace to the community.

Baker Would Like to Sign With the Sac ramentos-Next Sunday's Game.

In order that no one may be disap pointed, announcement is again made that the game scheduled for this city to-day, be tween the Stocktons and Sacramentos, will not take place, as it has already been played off.

It is stated by the management that the Sacramento club will sign Baker, lately of the Stocktons, if he can get his release from the Newark club. President Mone, of the California League, has telegraphed Manager Lang, of this city, that Baker belongs to Newark unless he is released, and therefore he cannot be signed as yet by any club in this League. Though he would much rather play with the Sacramentos. Baker says he will go East if obliged to do so, but not until they forward him some money and two tickets—one for his wife. He is short of funds, but does not propose to leave his wife behind him. The whole matter has been submitted to the Board of Arbitration in San Francisco, and their ac tion in the matter will be the final one. President Mone has telegraphed Sylves ter, of this city, that he will give him a chance at umpiring in the California Next Sunday's game here will be between

The arrested man, however, says he had

nothing whatever to do with the affair, and remarked: "Me think he clazy." The officers do not think that Ah Tong is the party wanted at all. It is said that different Chinamen visiting the sick man have induced him to swear that Ah Tong did the shooting, so as to have revenge on some one, if not upon the guilty party. Another theory is that Suey Kay has a grudge against Tong, and finding that the real party cannot be apprehended, has con-cluded to do the next best thing and lay the already taking steps to that end. He should have the hearty co-operation of the busiplame on Tong.

THE VERY BEST ADVERTISEMENT OF OUR GOODS WOULD BE THE GOODS THEMselves could they be sent around for general inspection. As this is impossible, we
fall back on the faithful types to assist us to describe, in some measure, the chief feature of
our stock. We aim to satisfy all classes of buyers, and our stock, therefore, includes the
Variety of Grades which have correspondingly Varied Prices. We desire to be known
for cheapness, but we handle no cheap goods; that is to say, we give even in Low Prices
the very best article the market affords for the money. It is a shot-righted policy for any
merchant to make a reputation for low-priced goods at the expense of his reputation for
values. No article is really cheap which will not return the buyer the full value of the
money expended in its purchase. Our steady aim is to satisfy buyers, not only by Alluring
Hargains, but by the satisfaction that comes in goods that wear and stand the tests of actual
use. AP Parties desiring to purchase or not are welcomed at our store.

Preparations for Receiving Them in Proper Style. At noon on the 25th of this month a board about one hundred members of the Western Associated Press. These gentlemen are the owners and managers of the great daily newspapers of the Western

State-the Sacramento, San Joaquin, Napa and Santa Clara valleys, and go as far south as Merced. The State Board of Trade, at its meeting on Tuesday, appointed a committee to arrange a proper reception of the excursionists and enlighten them in regard to the resources and beauties of California. The excursionists will remain in Sacra-mento for three hours, and arrangements

should be made to give them a reception and show them the beauties of our city. E. K. Alsıp, the Sacramento representative in the State Board of Trade, assured that body that this city would entertain the visitors in a fitting manner, and Mayor Gregory is already taking steps to that end. He should have the hearty co-operation of the business men of the city.

The following circular, issued by the Secretary of the State Board of Trade yes-

terday, explains itself. The fruits, wines, flowers, etc., are to be sent to Ogden for use on the special train as it comes this way:

San Francisco, July 10, 1889.

Special and Important—A special train carrying over one hundred of the members of the Associated Press, edi ors and proprietors of the leading newspapers in the East, will arrive in this State on the 25th of July. In view of the work of this Board, it unanimously resolved at its annual meeting held yesterday (1uesday), 9th, that the opportunity to enlighten these editors could not pass by, hence your county is called upon to furnish fruits, wines, salads, flowers. Please arrange to have the articles ready for shipment by the 20th of July. I will arrange with either Wells-Fargo or Southern Pacific Company to forward to me, care agent, Sacramento. A special committee of the Board will accompany the press committee to the State line to meat the special sacramento. A special committee of the Board will accompany the press committee to the State line to meet the special.

The party will visit sevaral portions of the State—the Santa Clara, Napa, San Joaquin and Sacramento valleys—for the purpose of viewing the fruit and vine culture. We are also desirous of educating them concerning the advantage of irrigation. This will materially assist the Senatorial committee in their arid land survey reports.

#### TIME FOR ACTION. Chance for an Investigation of the City's

Fire-Alarm Officials. On the night of July 4th, a fire-alarm was sounded for box 21, at Twelfth and O streets, and Chief Engineer O'Meara was not long in reaching that locality, only to find that there was no fire in the neighborhood. There was a slight one, however, but it was on K street, between Eighth and Ninth. Night before last an alarm was sounded for Front and M streets, while the fire was in progress at Twentieth and O. These blunders are becoming dangerously monotonous, and it is about time the Fire Commissioners carried out their promise made a month or so ago to do a little reforming in that branch of the Fire De partment service. It does seem as if it might be possible to have the fire-alarm system kept in such a state of repair that and forenoon, after which time the sun alarms could be sent in correctly. It is too dispersed the clouds that hid his heating alarms could be sent in correctly. It is too serious a matter to be trifled with, and there should be a thorough investigation, without further delay, and the blame fixed wherever it belongs.

The person who is paid to look after the fire-alarm system has had various excuses to offer for past errors of the kind referred to, and it is barely possible that he can show he is not to blame, but property-owners require some positive evidence in that direction, or a change in the service. It does not seem at all reasonable that such blun ders cannot be avoided. As it is, the firealarm service is more than a farce-it is a positive menace to the community.

Baker Would Like to Sign With the Sacramentos-Next Sunday's Game. In order that no one may be disappointed, announcement is again made that the game scheduled for this city to-day, between the Stocktons and Sacramentos, will not take place, as it has already been played off.

It is stated by the management that the Sacramento club will sign Baker, lately of the Stocktons, if he can get his release from the Newark club. President Mone, of the California League, has telegraphed Manager Lang, of this city, that Baker belongs to Newark unless he is released, and therefore he cannot be signed as yet by any club in this League. Though he would much rather play with the Sacramentos, Baker says he will go East if obliged to do so, but not until they forward him some money and two tickets-one for his wife. He is short of funds, but does not propose to leave his wife behind him. The whole matter has been submitted to the Board of Arbitration in San Francisco, and their action in the matter will be the final one. our stock. We aim to satisfy all classes of buyers, and our stock, therefore, includes the
Yariety of Grades which have correspondingly Varied Prices. We desire to be known
for cheapness, but we handle no cheap goods; that is to say, we give even in Low Prices
the very best article the market affords for the money. It is a shot-tsighted policy for any
merchant to make a reputation for low-priced goods at the expense of his reputation for
values. No article is really cheap which will not return the buyer the full value of the
money expended in its purchase. Our steady aim is to satisfy buyers, not only by Alluring

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

FLOODS IN NEW YORK Towns Inundated and Millions of Prop-

erty Destroyed. ROUNDOUT, July 10th -The biggest storm of the summer visited Hudson valley last evening. The rain fell in torrents, and huge volumes of water rushed through the streets and choked the sewers. The rain was accompanied by thunder and lightning. Hailstones as large as hazelnuts fell in large quantities, crashing through the S. Pettigrew, of Sioux Falls, will be Edgerglass like bullets. TROY (N. Y.), July 10th.—Reports have reached here that three big dams have been washed away near Johnstown, N. Y. Crowds of people were on a bridge watching the flood, when it was carried away and several people were drowned. The town is in darkness, nine bridges and the electric light plant having been washed away, and so were three skin mills at Gloversville. One body has been recovered. The water was three feet deep in the town

of Fonda at midnight. The rain is falling in torrents, and mills and sheds are being swept away. The down-pour caused the Cayandutta creek to become a raging torrent, which burst its bounds. Two dams gave way, being unable to stand the enormous pressure. The torrent swept on, taking along several factories on the banks, valued at many thousands of dollars. A number of building were also swept away. The Fonda, Johnstown and Gloversville Railroad loses eight ridges. At Fonda, the New York Central Railroad bridge was carried away almost bodily, taking along the telegraph wires, so that it is almost impossible to hold communication between Fonda and the surrounding towns.

ANOTHER SUFFERING JOHNSTOWN. JOHNSTOWN (N. Y.), July 10th.-It is reported that the waterspout which struck the northeast part of the town preceded the flood, which increased the depth of the already swollen streams fifteen feet in a few minutes. No one definitely knows how many persons were drowned. The lood was so great and the current so swift that no help could be rendered without great danger. Several persons who went down with the Ferry-street bridge, who were supposed to be drowned, are alive and relate thrilling experiences. Chas. Abbott was carried down from the Ferry-street bridge to the dam, where he went over. going down a distance of sixteen feet. He ceeded in swimming ashore. Peter was carried under the Ferry-street bridge Purdy Case rescued two men named Neilis and Vosburg by means of ropes. It is believed the two men who went down on the plank lost their lives at the dam and the bodies were carried down the Mohawk

It is now thought that fifteen lives were lost last night in the floods. Four bodies were recovered this morning. At 4 A. M. the body of Burt Speedwell, fifteen years of age, was recovered from the debris at this An hour later the body of Albert Cokely was pulled out from under drift-wood back of Evans Mills. Soon after the oody of a man named Treadwell was found in the same place. At 9 a. m. the body of Charles Frear, fifty-five years of age, a carpenter, was uncovered from under the wreck at Evans Mills. All the bodies were badly ruised and were removed to the police headquarters, where they will be held pending the Coroner's inquest. The pecuniary loss will probably not be great. The loss on Schrimer's Mill, the largest individual loss, is about \$10,000.

The persons missing who may have been drowned, although there is no certainty that they were, are as follows: R. D. Simmons, of the firm of R. D. Simmons & Co. painters; Willie Myers, nine years old, and Miss Ada Miller, an employe in the glass factory. The reports of the number lost are uncertain. The number ranges from fifteen to sixty. The latter is probably

AN EYE-WITNESS.

An eye-witness gives the tollowing ac-count of the disaster: "Rain began falling at Johnstown at 2 o'clock yesterday after noon. It rained hard and steadily until 6 o'clock. Between 6 and 7 o'clock reports came that the Fonda, Johnstown and Gloversville Railroad bridge was washed away and the large stone bridge at State street had also gone out. These reports caused the most intense excitement, and proved true. The flood had started east of the village and had washed away the new addition to Scriver's leather-dressing mill and had also taken Scriver's dam. Then it turned to the south, on Cayadutta creek, and took away the iron railroad bridge and the State-street bridge. A stone dam at Leibenheim's leather-dressing mill then went down with the flood and the sawmill was taken with it. It was now 8 o'clock in the evening, and the town was in a ferment of alarm. Thousands of people lined the shore of Cayadutta creek and watched the boiling flood. Many were on the Ferry-street bridge. Suddenly the bride gave way and the people on the structure were thrown into the current. some escaped and others were carried

The following persons it is ascertained have been rescued after the Ferry-street bridge went down: Benjamin Nellis, John Vosburgh, A. Putnam, - Davis and one man name not given.

BODIES RECOVERED. ALBANY, July 10th .- The latest news o the flood at Johnstown is that the number of lives lost will not exceed fifteen. Nine bodies have been recovered. Six persons are missing who are certainly drowned. The loss to the New York Central Railroad is estimated at \$200,000. There was great destruction to bridges throughout the flooded section. Trees two feet in diameter were snapped off by the rushing waters.

SCHENECTADY (N. Y.), July 10th .- There is as yet no certainty of more than four lives lost at Johnstown, and these victims were on a bridge viewing the flood after the storm. The bridge dropped into the water, but was not carried away. This water, but was not carried away. This afternoon the tracks and bridge at Fonda born on Gardiner's Island, near East and Atkens were sufficiently repaired to permit the passage of trains. The total damage in the valley of the Cavadutta to bridges and crops will reach \$300,000.

KILRAIN IN A BAD WAY. LITTLE ROCK (Ark.), July 10th.—Kilrain and party passed through Little Rock this afternoon. They were passengers on the Iron Mountain train from the South, en route to St. Louis.

A reporter accompanied the party as far as Baring Crossing. A friend of the reporter introduced him to Kilrain and party. Kilrain was very sick, and from all ap pearances was badly used up. The fact hat he was sore from ring punishment could not be better illustrated than by noicing him when he attempted to put on his coat. This was difficult, and was not accomplished without the assistance of Mitchell, who carefully helped him on with Mitchell was not careful enough, and t was noticed that the pugilist flinched, as if in great pain. He was finally seatted and supported by big, fat pillows. His face was discolored, and resemble mahogany more than anything else, while his left eye was black and blue, and just under his right eve he wore a cut in the shape of a crescent. Indications that the Interstate Association will Heal the Breach. CHICAGO, July 10th .- The Presidents o nes in the Interstate Commerce Railway Association met again to-day, without givng any indication that they intended to et their organization go to smash. Comnittees appointed on the preceding day to abor with the Chicago and Alton, and Chicago, Burlington and Northern, had nothing to report, and were allowed further time, it being announced that General Manager Harris of the latter company would arrive in this city to-morrow. A resolution was adopted instructing managers of the roads represented to take steps to advance rates from Peoria and St.

Louis to St. Paul and immediate points. It was further resolved that the commodity rates which have recently been put into effect between Chicago and St. Paul are too low to be reasonable, and it is the duty of fluence to have them advanced as soon as possible.
